**Subject: Performance of Fitch Fuel Catalyst**

Dear Sir,

We have purchased Series of Fitch Fuel Catalyst F-500 for 120KVA DG Set, F -750 for 360 KVA and F-1000 for 500KVA DG Sets for our works at our Delhi Factory in the year 2006-07. Further on the good performance of these catalyst in the year February 2010 we had purchased two more sets of catalyst for 500KVA & 750 KVA for our unit in Uttarkhand. We are satisfied with the performance of the catalyst besides saving fuel over 9% there is considerable reduction in the Air Pollution and maintenance cost.

We had also promoted the products to our sub contractors in Delhi and Uttarkhand

Thanking You

Ashok Kumar

General Manager Maintenance
